

1) Algal collection Trip- Thikkodi, Kozhikode

The algal collection trip of 1st year MSc students (2021-2023 batch) to Thikkodi beach was conducted on 21/02/2021. The trip was coordinated by **Dr. M Shamina**, Assistant Professor, Department of Botany, University of Calicut. The trip helped the students understand more about the algal diversity and the techniques to preserve algae.

2. Pteridophyte-Gymnosperm collection- Ooty, Tamil Nadu

The diversity of Fungi, lower forms such as Bryophytes, Pteridophytes and Gymnosperms was experienced by students in the two-day Ooty trip conducted on 23/02/2021. The trip was coordinated by **Dr. M Shamina**, **Dr. K.P Deepna Latha** and **Dr. L Resmi**. The wide range of plant varieties were collected and preserved by students. The students collected so many fungi, pathological materials, Bryophytes, Pteridophyte and Gymnosperms from nearby areas of Dodabetta. They also visited Benchmarks Tea Factory and Rose Garden.
